Asil Future General Contracting Establishment, founded in 2020, is a leading provider of contracting services. Backed by experienced leadership, we are committed to delivering superior quality solutions that exceed client expectations.

At **AFG Contracting**, our team of dedicated professionals is driven by passion, innovation, and performance. We continuously raise industry standards by offering tailored, high-quality solutions that add value and redefine excellence.

Our expertise spans multiple disciplines, ensuring top-tier services across various fields. We are specialize in planning and designing administrative, commercial, residential, Schools and sports buildings, as well as renovating existing structures covering both exterior and interior aspects, from concept to completion.

With exceptional attention to detail and a commitment to excellence, we help clients transform their visions into reality, delivering projects that meet the highest quality standards.

ENGINEERS, TECHNICIANS EQUIPMENTS & LOGISTICS

AFG CONTRACTING was founded by a group of professionals with extensive technical knowledge and managerial expertise in construction, renovation, and various related fields. Our mission is to drive accelerated and sustainable business growth for our clients through the development and implementation of innovative strategies.

We provide high-quality engineering services and support tailored to meet the unique needs of our customers. By working collaboratively with our clients, we ensure the best possible outcomes.

Registered under the Companies Act in May 2006 as a Private Limited Company in Saudi Arabia, we are headquartered in the heart of Riyadh. As a professionally managed organization, we offer a wide range of supply and service solutions, including civil and electrical works, building construction, and operations & maintenance across all sectors. Currently, we have a team of over 50 engineers and technicians engaged in various projects. Additionally, we are continuously expanding our workforce to meet the growing demands of construction and renovation, particularly for major government installations and private institutions.

AFG CONTRACTING has the capacity to provide over 500 skilled technicians and laborers simultaneously, ensuring efficient workforce deployment for large-scale projects. Our extensive resources and well-structured teams enable us to meet the demands of major government and private sector projects with speed and reliability.

OUR CORE TEAM

At **Aseel Future General Contracting (AFG Contracting)**, our success is driven by a team of highly skilled professionals who bring expertise, innovation, and dedication to every project. Our core members are industry leaders with years of experience in construction, engineering, architecture, project management, and business development. Their collective knowledge and commitment to excellence ensure the successful execution of complex projects, contributing to the growth of both our company and the Kingdom's infrastructure.

Each member of our leadership team plays a crucial role in strategic planning, project execution, and quality assurance, ensuring that we consistently meet and exceed industry standards. With a shared vision aligned with Saudi Arabia's Vision 2030, we are committed to delivering world-class construction and development solutions that shape a sustainable future.

Would you like me to include specific profiles for key team members, such as the CEO, Project Managers, or Lead Engineers? Let me know, and I can tailor individual descriptions accordingly.

MR. ESSA AWAD AL ANAZI GENERAL MANAGER

As the General Manager of Aseel Future General Contracting, I am dedicated to leveraging extensive human, intellectual, financial, and physical resources to deliver high-standard construction services that actively contribute to the realization of Saudi Arabia's ambitious Vision 2030. Under my leadership, AFG Contracting remains steadfast in its mission to develop world-class infrastructure, promote sustainability, and drive innovation in the construction sector.

Mr. Essa Awad has consistently demonstrated a strong aptitude for goal setting, strategic planning, and execution, playing a pivotal role in the successful completion of large-scale projects. His clear vision, meticulous attention to detail, and ability to develop actionable strategies have led to the seamless execution of complex tasks and the achievement of key milestones within strict timelines and quality standards.

ENG HESHAM ADNAN DAHER PROJECT COORDINATOR

Eng. Hesham has an outstanding track record as a Project Coordinator, demonstrating remarkable achievements throughout his career. His hard work, dedication, and commitment have been instrumental in driving projects toward success and achieving significant milestones. With a keen eye for detail and a strategic mindset, he has proven himself to be an exceptional problem solver and decision-maker, consistently overcoming challenges and obstacles that arise during project execution.

His analytical thinking, creativity, and ability to make sound judgments have been key contributors to the successful delivery of complex projects. His expertise extends across multiple domains, ensuring seamless coordination and execution while maintaining the highest standards of quality and efficiency. Eng. Hesham's leadership and technical acumen have enabled him to play a pivotal role in supervising and overseeing large-scale construction projects, ranging from high-rise buildings to critical infrastructure developments.

His impressive career trajectory has seen him advance to Head of Construction Supervision, overseeing projects with a combined value exceeding Twenty Billion Saudi Riyals. His unwavering commitment to excellence and innovation continues to shape the success of every project he undertakes, reinforcing his reputation as a distinguished professional in the field of construction and project management.

ENG. MUHAMMAD NAEEM PROJECT'S MANAGER

Eng. Naeem is a highly skilled and experienced Civil Engineer and Project Manager, renowned for his expertise in executing large-scale, high-profile projects across the construction industry. With a career spanning over 35 years in the Kingdom of Saudi Arabia, he has successfully led the development of major landmarks such as the iconic Riyadh Jockey Club, Tamkeen Tower and the cutting-edge Al Rjahi Tower. His portfolio showcases a proven track record in managing projects with values exceeding 500 million SAR, reflecting his ability to oversee complex operations and deliver on ambitious goals.

As a Project Manager, Eng. Naeem is known for his meticulous approach to project planning and execution. He consistently ensures that all tasks are completed within budget and ahead of schedule, leveraging his extensive knowledge of project management techniques and construction methodologies. His leadership extends beyond just managing teams; he fosters an environment of collaboration and open communication, ensuring seamless coordination between all stakeholders.

Throughout his distinguished career in Saudi Arabia, Eng. Naeem has earned a reputation for excellence and reliability, becoming a trusted name in the construction industry. His dedication to every aspect of his projects, from conceptualization to completion, has earned him the respect of colleagues, clients, and industry leaders alike.

M. MOAZZAM CHISHTI
QC / AC ENGINEER

Eng. Moazzam has over 27 years of professional experience with multinational organizations, including 15 years in Saudi Arabia and 12 years in Pakistan. His extensive expertise encompasses the technical monitoring of construction projects, preparation and review of structural and finishing designs, shop drawings, material submittals, coordination, and as-built drawings. He excels at ensuring seam-

less project execution by collaborating with various engineering disciplines, construction teams, and clients to meet project requirements and approved schedules while maintaining the highest standards of quality and efficiency. Eng. Moazzam's experience spans high-rise and multi-story buildings, infrastructure projects, roads, bridges, underpasses, industrial facilities, healthcare projects, and educational buildings. His proficiency extends to site supervision, finishing design reviews, and detailing for diverse commercial, residential, public, and institutional buildings, including hotels, virtual hospitals, office buildings, and university campuses. He is known for his strong problem-solving abilities, meticulous attention to detail, and ability to streamline project workflows for timely completion. With a deep understanding of construction methodologies, material specifications, and regulatory requirements, His leadership in project coordination and technical decision-making has contributed significantly to the successful execution of large-scale developments.

MUHAMMAD YASEEN UMMED ALI
BUSINESS DEVELOPMENT MANAGER

Muhammad Yaseen is an accomplished Business Development Manager with extensive experience in identifying growth opportunities and driving strategic initiatives to expand business portfolios. With a deep understanding of market dynamics and a results-oriented mindset, he has successfully led efforts to enhance client relationships, forge new partnerships, and open doors to new business avenues.

Throughout his career, Muhammad has demonstrated exceptional skills in market analysis, sales strategy, and competitive positioning. His ability to understand clients' needs and tailor solutions that align with their business objectives has been central to his success. Whether developing new business strategies or optimizing existing processes, Muhammad excels at creating value for both clients and the organization.

His expertise spans multiple industries, with a focus on building long-term, sustainable relationships that foster trust and collaboration. Muhammad's proactive approach and innovative thinking have consistently driven revenue growth, improved market share, and solidified the reputation of the companies he has worked with.

With excellent communication, negotiation, and leadership skills, Muhammad Yaseen continues to be a driving force in business development, always focused on achieving excellence and ensuring strategic success.

ENG. FATIMA NASSIERY
SR. ARCHITECT AND INTERIOR DESIGNER

Fatima Nasseiry is a talented and visionary Architect and Interior Designer with a passion for creating spaces that seamlessly blend functionality, aesthetics, and innovation. With years of experience in both architectural design and interior spaces, she has cultivated a distinctive design philosophy that prioritizes harmonious, visually stunning, and highly practical environments. Her approach is rooted in a deep appreciation for design principles, sustainability, and the ever-evolving needs of modern living. Throughout her career, Fatima has worked on a diverse range of projects, spanning residential, commercial, hospitality, and institutional spaces. She is dedicated to ensuring that each design reflects the unique identity, needs, and aspirations of her clients, translating their visions into tangible, breathtaking realities.

Her expertise extends to space planning, material selection, lighting design, color psychology, and furniture curation, allowing her to transform ordinary spaces into extraordinary works of art. Fatima's architectural designs are characterized by their clean lines, thoughtful layouts, and sustainable methodologies, integrating eco-friendly practices that contribute to long-lasting and efficient structures. As an Interior Designer, she has a keen eye for detail and excels in curating interiors that tell a compelling design story, all while maintaining a strong emphasis on comfort, functionality, and aesthetic harmony. Her ability to seamlessly merge architectural elements with interior design ensures a cohesive, well-balanced final outcome, where every detail is meticulously crafted to create an inviting and sophisticated ambiance. Fatima's dedication, creativity, and expertise continue to shape inspiring and transformative spaces, making her a sought-after professional in the field of architecture and interior design.

ENG. MUHAMMAD ALI
CIVIL SITE ENGINEER

Eng Ali A highly motivated & dynamic civil engineering professional with 20 years of diverse experience as a site civil engineer, working with both national and multinational organizations. I possess a strong track record in site supervision, project management, and delivering exceptional results across various aspects of civil engineering. I am now seeking a challenging position within an organization that fosters a collaborative work environment, offers opportunities for personal and professional growth, and values talent and capabilities.

ENG. FAISAL SHAHZAD
MEP SITE ENGINEER

Faisal Shahzad is a dedicated and skilled MEP (Mechanical, Electrical, and Plumbing) Engineer with extensive experience in managing and overseeing the MEP systems installation and maintenance on construction sites. With a proven track record of ensuring the successful execution of MEP works for a wide range of projects, Faisal has honed his expertise in coordinating the installation of mechanical, electrical, and plumbing systems, while ensuring compliance with safety standards, codes, and regulations.

OUR MAJOR SERVICES

"These seasoned, highly experienced, and highly respected professionals excel in their respective fields. They oversee the company's operations and serve as the primary decision-making body, responsible for managing all affairs and representing the company to potential clients and business partners."

 CONSTRUCTION	 RENOVATION
 MAINTENANCE	 LANDSCAPING
 INFRASTRUCTURE	 HVAC WORKS
 MEP WORKS	 FIREFIGHTING SYSTEM
 LIGHTING / KNX SYSTEM	 TELECOMUNICATION
 SYSTEM SECURITY	 NETWORKING

CONSTRUCTION:

Our construction services cover a wide range of projects, from residential to commercial & industrial developments. With a focus on quality, safety, and efficiency, we manage the entire construction process, delivering exceptional results on time and within budget.

EXCAVATION:

Our excavation services are designed to handle all types of earth-moving and site preparation needs. With precision and expertise, we dig, level, and clear sites to prepare for construction projects, ensuring the foundation is solid and ready for the next phase of development.

SHORING:

We provide reliable shoring solutions that support and stabilize excavation sites, ensuring the safety of workers and the integrity of structures during construction. Our shoring services are tailored to meet specific site requirements, using advanced techniques and equipment to prevent soil movement and collapse.

CONCRETE AND SHUTTERING:

Specializing in concrete & shuttering services, we offer everything from pouring foundations to creating driveways, floors, and other concrete structures. Our team ensures each project is built to last, using the highest quality materials and precise workmanship.

FINISHING WORKS:

Our finishing services enhance the aesthetic and functional aspects of your project. From flooring, painting, and plastering to detailed carpentry, we focus on every detail to ensure your project is completed to the highest standards of quality and design.

MECHANICAL, ELECTRICAL, AND PLUMBING (MEP)

Our Electro-Mechanical Department is crucial to the success of the project, providing technical data, material specifications, and procedures. They coordinate the installation of all civil and architectural structures impacted by, or impacting, electro-mechanical equipment such as instruments, machines, engines, appliances, power controls (including low and medium voltage systems), and related components. Additionally, they oversee technicians and supervisors during the energizing and commissioning phases of the facilities. The department also supplies the ETD with pricing and quantity details for bidding preparations.

We provide comprehensive interior design services that transform spaces into personalized, functional, and visually stunning environments. Our team specializes in a variety of styles, from timeless **classic designs** that evoke elegance and sophistication, to **neo-classic** interiors that blend traditional elements with modern touches, and **modern designs** that focus on clean lines, minimalism, and innovative materials. We understand that each client has a unique vision, and we work closely with them to create spaces that reflect their personal style. From concept to completion, we handle every detail, including material selection, layout planning, and the integration of design elements that enhance both the aesthetic and function of the space. Whether for the residential, commercial, or corporate environments, our goal is to craft spaces that not only meet your needs but also inspire and elevate your daily life.

IT AND NETWORKING SOLUTIONS

Network security is essential for safeguarding client data and information, ensuring secure data sharing, and maintaining reliable access and network performance. It also provides protection against cyber threats.

A well-designed network security solution not only minimizes overhead costs but also helps organizations avoid costly losses that can result from data breaches or other security incidents.

Our comprehensive suite of data center networking solutions leverages cutting-edge technologies and industry best practices to address both your current and future infrastructure needs. From small-scale requirements to large, multi-layered deployments, our solutions are fully customizable to align with your business goals and ensure optimal performance and security.

One of the most critical factors of success for our company depends on how effective it is at managing the quality of products and processes. Strategies are constantly being refined and improved to fully optimize the use of people, processes, and technology.

AFG Contracting conduct site visits by specialized team and professionals to assess the quality of care and services provided, evaluate adherence to policies and procedures, and support various quality improvement activities and it able to prevent the project from scope creep or gold plating.

The Health, Safety and Environment (HSE) is an imperative aspect of our company's values and culture. We believe in providing comprehensive training opportunities to our workers to enhance their efficiency levels. Additionally, as a responsible member of the construction industry, we are committed to adhering to all the laws and regulations set out for occupational health, safety, and environmental protection. We are maintaining the highest standards of health and safety within our company. We firmly believe that by prioritizing the well-being of our workers and environmental sustainability, we are able to create a positive and productive workplace where everyone can thrive. Trust us to prioritize your safety today and every day.

IT & NETWORKING SOLUTIONS

AFG CONTRACTING provides cutting-edge IT and networking solutions, ensuring seamless connectivity, robust security, and efficient infrastructure for businesses. Our services include network design, installation, cybersecurity, cloud solutions, and system maintenance, tailored to meet the evolving needs of both government and private sectors. We deliver reliable and scalable solutions to enhance operational efficiency and digital transformation.

Artificial Intelligence - AI simulates human intelligence in machines, enabling expert systems, NLP, speech recognition, and machine vision for automation and decision-making. Networking connects systems using routers, switches, and gateways for seamless data transfer. Wireless networking enables communication via radio waves without physical connections.

We provide advanced Access Control and CCTV solutions to enhance security and monitoring. Our systems include biometric access, keycard entry, and high-definition surveillance, ensuring controlled access and real-time surveillance for businesses and organizations.

HOLOGRAPHIC DISPLAY

EXPERIENCE AND CRISIS CENTER

Experience Centers: Evolving for Engagement Originally designed for one-way communication, Experience Centers showcased solutions without focusing on feedback. As audiences became more informed, PITC adapted by creating immersive, authentic spaces that foster a deeper, more personal connection between clients and the brand.

Crisis situations affect multiple areas of your organization. With an integrated crisis management program, PITC helps you navigate disruptions confidently. We provide advanced tools, latest technology, and a structured approach to engaging external vendors and third-party support as needed.

AFG Contracting creates flexible designs that align with the client's brand. Our approach includes adaptable spaces, digital experiences, and a tangible reflection of the brand's identity. We focus on creating environments that not only engage but also foster deeper connections with clients. We design Experience Centers that immerse clients in the company's story, showcasing what makes the organization unique. Our spaces are built to inspire creativity, collaboration, and innovation, while ensuring a seamless user experience. By blending cutting-edge technology with thoughtful design, we help businesses communicate their vision effectively.

VIDEO WALL SYSTEM

LED Video Walls: From premium MicroTiles® LED models to the more budget-friendly Core Series II LED, we offer solutions tailored to any application and budget.

LCD Video Walls: Our tiled LCD panels provide a versatile platform for 24/7 indoor video wall applications, ideal for control rooms, meeting rooms, and retail environments.

Switchers & Distribution: We design and integrate Software Defined Video over Ethernet (SDVoE) systems, delivering exceptional quality and performance.

Content Management & Image Processing: Our advanced content management and image processing technologies make it easy to manage multiple screens and deliver high-quality content for even the most complex applications.

LIGHT CONTROL

Light control allows the regulation of light levels and quality in a space, optimizing it for specific tasks or situations. Proper light control enhances the user experience and promotes energy savings by ensuring light is used only when and where it's needed most.

SPEED GATES

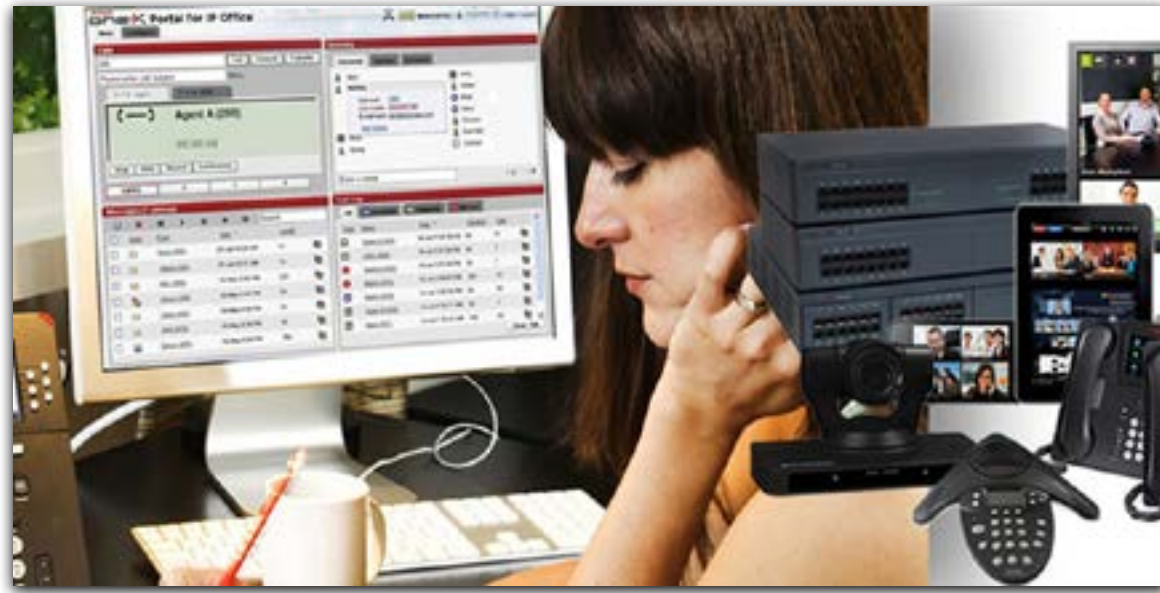

SMART PARKING

Our Smart Parking Telephony solutions combine cutting-edge communication technology with advanced parking management systems. By integrating IP telephony with smart parking infrastructure, we offer an efficient way to manage parking services through voice calling, real-time notifications, and automated communication systems.

This innovative solution enables seamless remote monitoring and control of parking spaces, allowing users to receive real-time updates on availability, make reservations, or access assistance via phone or messaging. It enhances the parking experience by providing faster responses and reducing time spent searching for parking spots.

With smart parking telephony, businesses and cities can improve traffic flow, optimize parking resources, and offer a more convenient service to drivers, all while reducing the environmental impact and operational costs associated with traditional parking management systems.

We offer Internet Protocol Telephony solutions that leverage the power of the Internet Protocol (IP) to provide efficient and cost-effective communication services. Our solutions support a wide range of features, including voice calling, video calling, video conferencing, voicemail, fax, and instant messaging (IM), all delivered seamlessly over the internet.

By using IP technology, we help businesses and individuals streamline their communication systems, eliminate the need for traditional phone lines, and reduce operational costs. Our scalable solutions ensure high-quality, secure, and flexible communication, making it easier to collaborate, connect, and manage communications from anywhere.
